

Sharon and William E. White, Jr. in Our Lake House

January 10, 2007

*Mike Bullock Construction, Inc.
P.O. Box 638
Ladysmith, VA 22501*

Dear Sirs,

It is with great pleasure that we write this letter of appreciation for the outstanding job done by the Mike Bullock Construction Team on our Lake Anna Home last year.

Our Lake Home was built within seven months based on our detailed specifications. We found Mike, Judy, Julie, Lewis and all workers to be expeditious with our changes, concerns and/or requests. They "worked with" and not "against" us! We were able to reach them quickly and all questions were answered without hesitation. We could never tell they were working on any other homes due to the attention paid to ours!

Our home is currently used for weekend visits, but will become our permanent residence in the near future. How blessed we were to have found a builder who allowed us to "sleep at night"- resting assured that we had the best in Lake Anna building our future permanent home.

On January 6th our home was blessed. Our guests were "more than" impressed with the workmanship. Many marveled at Mike's attention-to-detail. They also stated what a joy it must have been to be able to find such a great builder when we live so far away. Several even expressed the desire to ask Mike Bullock Construction, Inc. build their next home!

Last weekend, during one of our many visits, we spotted another building lot at the lake.

Mike, get ready! We'll be back!!

Sincerely,

William and Sharon E. White
