Dear Mike,

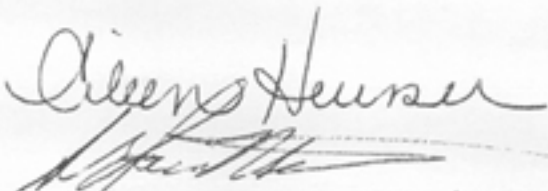

Since we settled on our home back in late February, we have been slowly but surely getting moved down here. We are finally at the point now where we are calling this our residence and keeping busy getting settled in.

We want to thank you and all your staff for making the process of building our home one that was definitely beyond our expectations. We have especially appreciated the quality of workmanship and attention to detail that went in to every task from the site preparation to the final trim work. I would have to say the biggest problem we faced was choosing cabinets, flooring, light fixtures etc. and getting that done to keep pace with your outstanding crew.

Please feel free to use us as a reference. We consider it very fortunate to have had your company build our home and would highly recommend you to anyone we know.

Again, thank you for a job well done and making this home building experience a very positive one.

Sincerely,

Eileen Heusser and Steve Smith
